Let's pool together

15 Jan 2007

YES, Jack Davis, many of us have seen delay after delay over the redevelopment of Oakleigh pool (Your View, January 8).

We may never know why an option for the refurbishment of Oakleigh pool, which includes a diving pool, 50-metre pool, learner and toddler pools, was not included in the options for community consultation.

However, there is agreement by the councillors that the options are not fixed and, that we, the ratepayers, can state what we would like to see added or taken away from the options.

I urge those who want to see a pool that caters for all the community to let the council know what's needed — and that's a diving pool, 50-metre pool, and learner and toddler pools.
